OBJECTIVE

Cybersecurity Analyst with hands-on experience in Python programming, cryptography, and network security fundamentals. Seeking an internship to explore cybersecurity while contributing to impactful projects.

EDUCATION

Integrated MTech in Computer Science Engineering (Specialization: Cybersecurity) 2022 - 2027
(Expected)
Vellore Institute of Technology, Bhopal

SKILLS

Technical Skills	HTML, CSS, JavaScript, Python, Cryptography, Network Security
Soft Skills	Leadership, Team Management, Communication, Problem Solving

EXPERIENCE

Python Programmer (Intern)	Jun 2023 - Jul 2023
NextGenDev	<i>Remote</i>

- Completed 5 Python programming tasks focused on data manipulation and algorithm implementation.
- Gained practical programming experience in Python, focusing on coding best practices and problem-solving techniques.

PROJECTS

Feasibility of Designing Block Ciphers that Support Homomorphic Operations. Collaborated in a group project to investigate the feasibility of designing block ciphers with homomorphic operations using Python. Applied cryptographic techniques to analyze encryption operations and their mathematical properties.

EXTRA-CURRICULAR ACTIVITIES

- Member of the National Service Scheme (NSS), involved in social service activities supporting community development.

LEADERSHIP

- Led and coordinated college events in roles such as Social Media Lead, Planning Team Co-Lead, and Discipline Head.

CERTIFICATIONS

- Bits and Bytes of Computer Networking – Coursera
- Cisco Skills for All: Introduction to Cybersecurity – Cisco
